DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13,14,26 & 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Davis et al. (US Patent Number 6,062,911). Davis discloses a clamp member (36) and comprising a bowed leaf spring with connecting portions that are adjustable and a pair of transversely extending arms (see figure 3).

Allowable Subject Matter

Claims 1-11 & 17-24 are allowed over the prior art of record.

Claims 15,25 & 27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-28 have been considered but are moot in view of the new ground(s) of rejection.
